AI / MACHINE LEARNING ENGINEER

Artificial Intelligence master's student and Computer Science graduate at the University of Verona, specialized in machine learning, deep learning, computer vision and natural language processing, with a strong portfolio of hands-on AI projects. Backed by solid software-engineering and full-stack foundations, I build practical, data-driven AI systems end to end, from the model to the interface. Motivated, curious and eager to grow within an AI / machine-learning engineering team.

EDUCATION

University of Verona: M.Sc. in Artificial Intelligence **2024 – Present**
Master's program focused on machine learning, deep learning, computer vision and natural language processing, combining strong theoretical foundations with hands-on AI projects. *Final grade: in progress.*

University of Verona: B.Sc. in Computer Science **2020 – 2024**
Thesis: "Development of a web app for monitoring IP uptime and security".

PROFESSIONAL EXPERIENCE

BSQ: Verona, Italy **2023 – 2024**
Full Stack Developer
Designed and developed, end to end, a secure web application to monitor the uptime and security of IP devices: delivered as my Bachelor's thesis, working independently across the full stack.

- Built asynchronous network scanning with Celery and Nmap (open-port detection, OS fingerprinting, security checks) with immediate threat notifications.
- Developed an interactive dashboard with map geolocation, real-time up/down monitors and a searchable device table.
- Implemented secure authentication, role-based permissions (user/admin) and multi-language support, backed by a MySQL database.
- Stack: Python, Flask, Django, Celery, Nmap, MySQL, HTML, CSS, JavaScript, Bootstrap.

Compass Group: Verona, Italy **Jun 2022 – Sep 2022**
Barman

- Customer service in a fast-paced environment; strengthened communication, teamwork and time management.

PROJECTS

Bone Fracture Detection with Explainable AI: ResNet18 X-ray classifier whose Grad-CAM attention aligns with radiologists' annotations, with a YOLOv8 + classifier pipeline reaching 93% accuracy. *(Python, PyTorch)*

Visual Question Answering (VQA): Multimodal models that answer natural-language questions about images, comparing 8 vision–language architectures (CLIP, ResNet, BERT, LSTM). *(Python, PyTorch, Transformers)*

Neuro-Symbolic Safe Driving: Reinforcement-learning agents (DQN, PPO) made safer with traffic rules in temporal logic, cutting crashes from 35% to 5% in an unseen simulator. *(Python, RL)*

Lifelong Action Learning: Video action recognizer (CNN + LSTM) on UCF101 that learns new actions over time without forgetting, using replay, distillation and MAML meta-learning. *(Python, PyTorch)*

MACURA Drone Racing: Trained a simulated drone to race through a 3-D windy course, comparing model-based reinforcement-learning methods (MACURA, MBPO, M2AC, SAC). *(Python, MuJoCo)*

Fitness Activity Recognition: End-to-end ML pipeline classifying six gym exercises from accelerometer/gyroscope data; best model (Random Forest) reached 98.3% accuracy. *(Python, scikit-learn)*

CongruentClosureDAG: DAG-based congruence-closure algorithm for the satisfiability of equality formulas with arrays, lists and uninterpreted functions, plus a graphical visualizer. *(Java)*

More projects: explore the full AI & software portfolio on github.com/silvergjeka22.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, Swift, MATLAB

AI / ML: PyTorch, scikit-learn, Hugging Face Transformers, Computer Vision, Deep Learning, NLP, Reinforcement Learning, Explainable AI

Web: Flask, Django, HTML, CSS, Bootstrap

Data & Tools: MySQL, pandas, NumPy, Celery, Nmap, Git/GitHub, LaTeX

LANGUAGES

Albanian: Native | **Italian**: C1 | **English**: B2

ADDITIONAL

Programs: CyberChallenge.IT 2026, a national cybersecurity training program.

Open Badges: iOS Development with Swift; Problem Solving & Soft Skills (University of Verona, 2022).

KEY COMPETENCIES

Machine Learning	Deep Learning	Computer Vision
Full-Stack Development	Data Analysis	Problem Solving
Natural Language Processing	Team Collaboration	Fast Learner
